

CSIR-SERC Webinar Series 2023-24

Webinar-1: 17 August 2023

“Deep Learning Neural Networks for Condition Monitoring”

Presenter: **Dr. J. Prawin**, Senior Scientist

Webinar-2: 6 September 2023

“Circular Economy in Construction Industry Towards Promoting Waste Management and Utilization”

Presenter: **Dr. T. Hemalatha**, Principal Scientist

Webinar-3: 13 September 2023

“Retrofitting Techniques for Transmission Line Towers Using Composite GFRP Angle Sections”

Presenter: **Dr. R. Balagopal**, Principal Scientist

Webinar-4: 27 November 2023

“Fire-resistant Design of Steel Structures”

Presenter: **Dr. A. Cinitha**, Principal Scientist

Webinar-5: 22 February 2024

“Concrete Durability-importance of Durability Specifications”

Presenter: **Dr. S. Bhaskar**, Chief Scientist

Webinar-6: 9 February 2024

“Characterization Techniques for Cementitious Materials”

Presenter: **Dr. S. Maheswaran**, Senior Prin. Scientist
